

CONSULTING SERVICES

Liberty Energy Services is a world-class consulting firm with a heavy focus on providing our clients with solutions associated with the complex challenges in the oil and gas industry. We have developed a diverse portfolio of successful projects in the energy industry.

Our flexibility and experience allows us to execute any project of any size, at any stage of project execution. Our clients appreciate the quick response, cost effectiveness, risk avert and open-minded business approach we apply. By applying our expertise, leveraging industry relationships and engineering smart solutions we can assist your project to a successful completion.

A FEW SERVICES WE PROVIDE INCLUDE:

- Regulatory assurance (OSHA, EPA, PHMSA, FERC)
- Training and orientation video production
- Planning
- Design
- Permitting
- Construction management
- Facility operations
- Legal support
