

SECURITY SOLUTIONS

An **Acadian** company

Safety Management Systems can provide you with the ideal security program for your site. This vital service ensures the protection of your employees and your property, making your day-to-day operations safer.

We offer a full spectrum of security and monitoring solutions, including manned and video security, virtual guards, GPS-based fleet tracking and monitoring, and personnel monitoring. Whether offshore, on a construction site, or at a refinery, SMS provides peace of mind with wide-ranging security options.

MANNED SECURITY GUARDS

- Security
- Restrict job site access
- Record daily activity
- Are properly licensed and fully insured
- Monitor proper use of PPE
- Inspect entering and leaving vehicles
- Ensure policies and rules are followed
- Monitor weather alert radios
- Maintain chemical material safety data sheets
- Contribute administrative support and medical first aid

FLEET SECURITY

- Deter theft and aid in vehicle recovery
- Track and monitor vehicles, drivers, locations, driving durations, and stop durations
- Monitor speed, harsh braking, high accelerations and seatbelt use

VIDEO SECURITY

- Intrusion and fire monitoring
- Virtual guard patrols
- Personnel tracking to notify of "man down"
