

ABOUT OUR

TRAINING ACADEMY

Safety Management Systems offers training at client job sites and at our training centers located across the U.S., but the most complete training services available can be found at our world-class 96,000 square-foot training academy in Lafayette, Louisiana.

Training is fundamental to the success of a workforce, but not all instruction is created equally. From media-supported lectures to interactive simulations and on-site lodging, we built our training center to provide a wide range of learning formats. Our Lafayette training academy features:

- 15 large multimedia-capable classrooms
- On-site 30-ton pedestal crane
- Sea survival pool with HUET and METS units
- Computer-based training lab
- On-site fire field
- Comfortable 96-person living quarters
- Recreation facilities
- Auditorium for hosting client and in-services meeting

SMS offers a full-service, state-of-the-art auditorium for business meetings and training. The auditorium is smoke- and alcohol-free and is not available for personal use.

Rental fees apply, so please call the Lafayette training academy at **800-252-5522** for more information and date availability.

We also provide training courses and services in Houston, Texas, offering a strategic location for clients near the energy hub. Our Houston facility is equipped to provide Major Emergency Management Initial Response, Offshore Installation Managers Controlling Emergencies, IADC Rig Pass, Qualitative Fit Testing, Defensive Driving, Medic First Aid, and a variety of Well Control courses.
